**Report of the Health and Human Resources Subcommittee**  
**The Honorable Janet D. Howell, Co-Chair**  
**The Honorable Emmett W. Hanger, Jr., Co-Chair**  
**February 5, 2023**

Co-Chairs and Members of the Committee,

I am pleased to provide the report of the Health and Human Resources Subcommittee. The Subcommittee has reviewed the Governor's proposed budget for SB 800, and numerous requests, for the agencies in Health and Human Resources. In the recommendations before you, the Subcommittee has focused on directing significant investments in the behavioral health system, increasing Medicaid provider rates, and improving the health care workforce pipeline to address critical shortages across the Commonwealth. The Subcommittee's recommendations include over \$423.0 million in additional general fund investments in Health and Human Resources that, combined with the adopted amendments in the introduced budget, total nearly \$850.0 million.

I am proud to announce the Subcommittee recommendations for behavioral health total over \$370.0 million, a significant investment to strengthen the community-based services critical to so many Virginians in need. This funding includes \$50.0 million to nearly double the budget for permanent supportive housing, \$50.0 million to increase compensation for our Community Services Boards to improve staff recruitment and retention, over \$54.0 million to increase rates for Medicaid behavioral health services, and additional investments to improve our crisis system.

You may recall from last year, the Subcommittee approved significant rate increases for a variety of Medicaid provider rates to address the effects of inflation and labor shortages that adversely impacts the ability of lower income Virginians to access needed health care services. The Subcommittee

recommends additional rate increases for personal care, developmental disability services, physicians, nursing facilities, behavior health services, and durable medical equipment, among several others.

The Subcommittee carefully evaluated initiatives to help increase the pipeline for the health care workforce, a critical issue the Commonwealth needs to address. The Subcommittee adopts nearly \$40 million in initiatives to address the nursing shortage and provide financial incentives for individuals training to become behavioral health providers. These investments in workforce come at a critical time and should help to increase the number of practitioners into the future.

Other recommendations I will highlight include a contingent amount for 500 additional developmental disability waiver slots. In addition, resources are included for the looming task of redetermining eligibility for everyone on Medicaid as the restrictions imposed during the public health emergency come to an end. Furthermore, I am pleased that the recommendations before you include a significant increase in the Auxiliary Grant rate to help low-income Virginians who need assisted living services. This action is long overdue.

There are other recommendations including investing in our public health and social services systems and providing needed assistance to people with disabilities. The members of this Subcommittee understand all too well the many needs and challenges in developing funding recommendations in the Health and Human Resources area.

As I conclude, let me thank the members of the Subcommittee for the time they invested to put this report together. I sincerely appreciate the contributions and efforts of each member of the Subcommittee.

With that, I conclude my report for Health and Human Resources. I hope it will be the pleasure of the Committee to adopt our amendments.

The department shall have the authority to implement this reimbursement change effective July 1, 2023, and prior to the completion of any regulatory process undertaken in order to effect such changes. The agency shall implement this by determining at the beginning of each year the percent of Medicaid that will result in estimated payments of \$11,050,000 million annually."

**Explanation:**

(This amendment provides \$5.2 million from the general fund and \$5.9 million nongeneral fund to authorize the Department of Medical Assistance Services to make physician supplemental payments for managed care patients of Children's Hospital of The King's Daughters (CHKD). These payments help cover the cost of caring for

thousands of children facing life-threatening illnesses, traumatic injuries and chronic conditions as well as those who need access to routine well-child care regardless of their families' ability to pay for services. Additionally, Physician Supplemental Payments would help CHKD address critical workforce development needs as the region's only teaching hospital for pediatrics. These payments would also support operational expenses incurred by CHKD associated with their Pediatric Mental Health Expansion.)

**Explanation:**

(This amendment provides \$58.3 million from the general fund and \$66.1 million from nongeneral funds the second year to increase reimbursement rates by twelve percent for Medicaid personal care, respite, and companionship services provided in agency-directed and consumer-directed waiver programs. The introduced budget proposed a five percent increase and this amendment raises the increase to 12 percent. This would change the consumer-directed rest-of-state rate from \$12.70 to \$14.22 per hour and the Northern Virginia rate from \$16.45 to \$18.42 per hour. The agency-directed rate would increase from \$18.51 to \$20.73 per hour for rest-of-state and from \$21.79 to \$24.40 per hour in Northern Virginia.)

The department shall have the authority to implement this reimbursement change effective July 1, 2023, and prior to the completion of any regulatory process undertaken in order to effect such change."

**Explanation:**

(This amendment directs the Department of Medical Assistance Services to establish reimbursement parity between substance use disorder (SUD) and mental health (MH) partial hospitalization (PHP) and intensive outpatient programs (IOP) by increasing the MH PHP and IOP reimbursement rates to the same reimbursement rate as SUD PHP and IOP.)

**Explanation:**

(This amendment directs the Department of Medical Assistance Services to inflate the Medicaid Specialized Care Facility rates for one additional year in lieu of the normal annual rebasing. The amendment also sets a process and timeline for the department and stakeholders to examine current data that would typically be used for the rebasing to determine its accuracy for such purpose in order to allow a return to the normal rebasing process after FY 2024. This amendment is language only as the rebasing process already includes inflation.)

**Explanation:**

(This amendment provides \$7.9 million the second year from the general fund to support the continued implementation and management of the expansion of Virginia Mental Health Access (VMAP) program to early childhood (ages zero to five). Funds would include the addition of regional early childhood specialists and new training of primary care providers. Funds will also allow VMAP to plan, implement, and manage expansion to pregnant and postpartum mothers. VMAP will train both the OB/GYNs and pediatric clinicians on screening and early recognition of Perinatal Mood and Anxiety Disorders.)

"RR. Out of this appropriation, \$8,700,000 the second year from the general fund is provided to increase funding for the first three steps of STEP-VA, including same day access, primary care screening, and outpatient services at community service boards."

**Explanation:**

(This amendment provides \$8.7 million the second year from the general fund to increase funding for same day access, primary care screening, and outpatient services at community services boards (CSB), which are the first three steps of STEP-VA. This funding will mitigate the costs of inflation CSBs are experiencing while performing these services.)

"O. The Department of Social Services shall increase the Temporary Assistance for Needy Families (TANF) cash benefits and income eligibility threshold by 10 percent effective July 1, 2023."

**Explanation:**

(This amendment provides \$9.8 million from Temporary Assistance to Needy Families (TANF) block grant funds and \$1.2 million from the general fund for a 10 percent increase in the TANF standards of assistance. The 2021 Appropriation Act included language providing for annual increases for TANF until it was 50 percent of the federal poverty level. It would then adjust annually to remain fixed at that level.)
